

NIKHIL CHAUHAN

DATA SCIENTIST/ANALYST

7061229435 | nikhilchauhan4olly@gmail.com | [Linkedin](#) | [Github](#) | [LeetCode](#)

Summary

Final-year B.Tech student with a strong interest in data-driven problem solving. Developed projects including a crime analysis system, IoT-based attendance tracker, and a student-recruiter matching platform. Skilled in Python, SQL, and basic data analysis, with additional exposure to React Native. Seeking an opportunity as a Data Analyst or Web Developer to apply my learning, grow with the organization, and contribute to meaningful projects.

Projects

Path-Wiser (Full Stack)

- Developed a full-stack app to help students track study progress with AI-based insights using the Gemini .
- Implemented personalized planning and performance analysis with React and Node.js

Improving placement for colleges (Machine Learning + Full Stack)

- Analyzed resumes using NLP and SentenceTransformer (all-MiniLM) to recommend suitable jobs and identify campus placement opportunities.
- Developed the system with React, Flask, and Python ML libraries for scalable deployment.

Book Recommendation System (Machine Learning + Full Stack)

- Created a content-based book recommender using NLP and embedding models for personalized suggestions.
- Used React for frontend and Flask with Python (Pandas, Transformers) for backend

Skills

Programming: Python, Pandas, NumPy, Java-script

Data Analysis: Excel, Power Bi, Pandas, NumPy, Seaborn, Matplotlib, SQL, MySQL.

Development: HTML, CSS, Java script, React, Flask.

Soft Skills: Communication, Problem Solver, Adaptability, Fast Learner,

Experience

Freelance Web Developer (05/2025 - 07/2025)

- Built a responsive site to showcase projects and enable consultation bookings. Used React and Flask for a clean, functional user experience.
- Website: [RMG Designs | Interior Design in Brampton & Toronto](#)
