EDUCATION

XII, 2022
Govt. Senior Secondary smart school, Kapurthala, Punjab.

B.Tech CSE, 07/2022 – Present
CT INSTITUTE OF TECHNOLOGY & RESEARCH.

EXPERIENCE

Data Science Intern, O7 Services 06/2024 – 08/2024 | Jalandhar, Punjab
• Assisted in data cleaning, preprocessing, and exploratory data analysis (EDA) on real-world datasets.
• Gained hands-on experience with Python, SQL, and data visualization libraries.

Hackathon Participant, GNA Hackathon 3.0
• Created a AI Powered Fashion Platform that suggest clothes based on body shape, size and Colour.
• Trained the Large fashion dataset.
• Tech Used: Pyhton, Pandas, Numpy, Tenserflow, React, nodejs.

SKILLS

Data Analysis — — Pandas: Data Cleaning and data Transformation. | | NumPy: Numerical data Handling and scientific Computing. | | Matplotlib: Data visualization. | | Excel: Generating Report , Programming Languages — Python.

ACADEMIC PROJECTS

Crime-Analysis, Python
• Developed a Crime-Analysis system to explore and visualize crime trends across various regions, time periods, and offense types using real-world crime datasets.
• Built interactive dashboards to identify hotspots, seasonal patterns, and correlations, enabling data-driven insights for better decision-making..
• Tech stack: Python, NumPy, Pandas, Matplotlib.

IOT based Attendance System
• Designed an IoT-based Smart Attendance System using RFID, NodeMCU, buzzer, and smart cards to automate attendance recording without manual input.
• Attendance data is updated in real time and can be monitored live by teachers for improved accuracy and transparency.
